## Pre-Employment Skills Questionnaire

Name: \_\_\_\_\_ Date: \_\_\_\_\_

### TECHNICAL SKILLS

<b>Sample Collection</b>	<b>YES</b>	<b>NO</b>
Blood collection canine jugular vein		
Blood collection canine cephalic vein		
Blood collection canine saphenous vein		
Urine collection canine voided sample		
<b>Catheterization</b>	<b>X</b>	<b>X</b>
IV catheter canine cephalic vein		
IV catheter canine saphenous vein		
IV catheter feline cephalic vein		
IV catheter feline saphenous vein		
Urinary catheter canine male		
Urinary catheter canine female		
Urinary catheter feline male		
Urinary catheter feline female		
<b>Injections</b>	<b>X</b>	<b>X</b>
IV injections canine cephalic vein		
IV injections canine saphenous vein		
IV injections feline cephalic vein		
IV injections feline saphenous vein		
IM injections canine		
IM injections feline		
SQ injections canine		
SQ injections feline		

### LABORATORY PROCEDURES

Fecal smear & float preparation		
Fecal smear & float evaluation		
Idexx parvo test		
Idexx Vet Test sample preparation		
Idexx LaserCyte CBC analysis		
Fresh blood smear preparation		
Manual PCV/HCT		
Manual total solids/protein (with refractometer)		
Blood glucose on glucometer		
Urinalysis reagent strip		
Urine sediment preparation		
Idexx Snap occult heartworm test		
Direct heartworm test preparation		
Idexx FeLV/FIV Test		
Ear cytology preparation & evaluation		

### RADIOLOGY

Proper use of protective wear		
Positioning for radiographs		
Measurement of patient & proper setting of x-ray machine using technique chart		
Film processing using dipping tanks		
Loading x-ray cassettes		

### ANESTHESIA

Familiar with the principals & workings of an anesthetic machine		
Endotracheal intubation of a dog		
Endotracheal intubation of a cat		
Monitoring patients under isoflurane anesthesia		
Familiar with intermittent positive pressure ventilation		
Refill vaporizer & change soda lime		
Pulse oximeter hook up & monitoring		
ECG hook up & monitoring		

### SURGERY

Preparation of surgery room		
Familiar with aseptic principals & techniques		
Surgery patient positioning		
Clipping & prepping surgery patient		
Cleaning & flushing contaminated wounds		
Surgical assistance		
Post-operative cleaning		
Patient monitoring during recovery		
Clean, package & sterilize surgical equipment		
Package & sterilize paper surgical drapes		
Proper scaling & polishing of teeth		

### PATIENT CARE
